

State Pool Families~

Parents, please be advised that you MUST sign up for the **Phase 2 Payment Options** on the State Pool & Registration Information page before you sign up for any date-specific training sessions. **Phase 2 Payment Options** is the form where you enter player information and select how you plan to pay for the upcoming ODP season. **You will either select Pay As You Go, Paid in FULL, or Monthly Payment Plan.**

After **Phase 2 Payment Options** is completed, you will then need to go to each individual training date your child plans to attend and register for those individually. When you are on the GotSport registration form for the training date, it will ask PAY AS YOU GO or ALREADY PAID IN FULL or PAYMENT PLAN. You must select the EXACT SAME OPTION you did on the **Phase 2 Payment Options**. **Paid in Full and Monthly Payment Plan must enter the PAYMENT ID number in your confirmation email.**

If you have started filling out the **Phase 2 Payment Options** form, please go to your GotSport account and finish the form instead of creating a new one.

Some families have signed up for **Phase 2 Payment Options** and believe that they are signed up for all training dates, but that is not the case. You must register for each individual training date after you complete **Phase 2 Payment Options**.

On Friday before each training weekend, **Indiana ODP will send a “remind email”** to those who have successfully completed the registration process. If you **do not receive** that “remind email”, then your child has not successfully signed up.

If you have an incomplete registration on the day of a training session, your child cannot participate until the registration is complete. If your child is NOT registered, they will be removed from the field of play until it is taken care of. The registration links will become inactive on the Friday before the training date at 10:00am. No late registrations will be accepted, and no refunds will be given once the link becomes inactive.

These details are important due to insurance matters, for coach planning purposes, and so we know exactly how many players to plan for in each age group so that we can have the right amount of field space and the right number of coaching staff.

Additionally, please know that December 15 & January 12 will NOT let you sign up if your child is born in 2008, 2009, 2010 because the training is ONLY for 2011-2014 on that day.

Any updates will be placed on the @IndianaODP twitter feed and on Instagram at indianao dp (these are your best resources for up to the minute changes). So, please make sure you follow us.

If you have any questions or need help with the registration forms, please contact Georgi Emehiser at georgi.emehiser@soccerindiana.org
